

RETRO FIT DESIGN

The SupaLite Roof System has been designed to be installed as a retro fit onto existing conservatory window frames, converting your conservatory into a usable all year round sun-porch. We can build you a new sun-porch from scratch should you require us to provide this complete service.

If you have an existing conservatory, you will probably agree that it is too hot in summer and very cold in the winter. With the incredible u-value of just 0.18 (0.15 for the Scottish market) of the SupaLite Roof System you will never experience these extreme temperature changes ever again!

- SupaLite gives an incredible u-value of 0.18 (0.15 for the Scottish market) that meets total building regulations.
- Lightweight aluminium fully structural frame with frame connector system for when new windows or doors are to be fitted to a new or existing building.
- Choice of tile and slate colours, all tiles are tried and tested for many years in USA, Canada and Australia, giving you total peace of mind in extreme weather conditions.
- 10 years guarantee on all roof components with a life expectancy of 60 years on tiles.
- Large roof vents are available to allow in maximum light.
- Full range of colour matching fascias, soffits and gutters to suit your choice of windows.
- Choice of internal ceiling finishes (plaster or tongue & groove timber effects).
- Easy to install to existing window frames.

THE BENEFITS

FINISHING TOUCHES

Metrotile

Metrotile is still the only lightweight steel roofing manufacturer that is able to offer a 25 year guarantee on all of our profiles. Crafted to the highest standard under meticulous conditions, each Metrotile is forged from drawing quality 3 steel, the highest steel grade available. The low carbon level within the steel allows the metal to flow evenly during manufacture, creating a highly durable tile while practically eliminating the risk of fracture.

Premium Slate

For centuries, slate roofing has been desired for its durability and beauty. With authentic surfaces and edges, Premium Slate highlights the handsome character of slate, at the same time enhancing roof performance through innovative design. Unlike natural slate, Premium Slate won't break or delaminate.

Premium Slate gives you the power to evoke both historical elegance and outstanding modern-day style. Our slates are created with moulds cast from real slate to capture genuine peaks, plateaux and curves. Colour-through design and UV stabilisation ensure "stay-true" richness for traditional colours.

Roof Vents

The well-designed centre pivot allows the sash to be opened in a range of positions, thus increasing the amount of fresh air which can be drawn into the room.

The sash can also be rotated through 180° and locked, allowing easy and safe cleaning of the outer pane to be carried out. Our Dekea windows have a much greater surface area when compared with similar sized windows made by other manufacturers. As a result they maximise the amount of natural light in a room.

Lighting Options

With a choice of internal or external lighting types to select from, we will provide you with the lighting of your choice which can be fitted in the ridge bulkhead or a newly installed lighting pelmet which will be plaster finished to match the interior of your roof as a whole.

Many customers choose external LED's to be fitted into the soffit creating a feature that is both functional and aesthetically pleasing in the evening.
