2016/4001/P	L. Polubiec	15B Ospringe Rd	19/08/2016 12:41:54	COMMNT	<p>In my view the proposed extension is disproportionately large. As such it will have a negative impact on the surrounding houses, and, by extension on the street and neighbourhood, by setting an oversized new precedent.</p> <p>At present the view from my only living space is on to a continuous expanse of gardens and trees that stretches all the way from the rear gardens of Lady Margaret Road to Montpelier Grove. As far as I can see, in this entire stretch there is just one rear extension, at 17A Ospringe Rd. In my opinion this is much more respectful of its immediate surroundings and is a good precedent to follow in terms of scale.</p> <p>I fully support the proposal to install a green roof – this gives something back to the neighbours either side and above, whose view after this project is built will be onto a bulky extension and its roof rather than onto gardens.</p>
