2016/4208/P	Alison Read	27 Mornington Crescent NW17RE	19/08/2016 17:35:46	AMEND	<p>I wish to add to my comments Ref: 20696189.</p> <p>I should have included that deliveries arrive at the Loading Bay on bicycles, small vans, regular vans and huge wagons - including refrigerated lorries - this is already a dangerous mix on a busy public road ( I'm a cyclist) - to increase the office space and hence the bulk and number of deliveries and collections and rubbish collection/disposal will not be possible without serious overcrowding which will increase the risk of accidents. ASOS have endless bulk deliveries of clothes etc - they don't just sit at computers plus of course they need the usual office, food and janitorial supplies - to increase the floor space by this percentage will put an unworkable demand on the delivery area. I know, I watch it daily - it is just about at peak operation now.</p> <p>Plus, the inevitable out of office smokers crowd the pavement between the junction with Arlington Road and opposite numbers 40/41/42 Mornington Crescent - leaving a litter of cigarette debris. It's very unpleasant to wade through them - this pavement use would presumably increase.</p> <p>Thank you.</p>
