2016/4549/P	Susan MacGregor	219 Albany Street NW1 4AB	21/08/2016 17:11:04	COMMNT	This is a revised application for a plan to which several residents of Gloucester Gate Mews objected earlier this year. Unfortunately the demolition work which will be necessary behind the now to be preserved facades of numbers 12 and 13 Gloucester Gate will still entail an enormous amount of builders' vehicle traffic in and out of Gloucester Gate Mews over many months. The entrance to these Mews is narrow and difficult to negotiate even for regular drivers of Camden vehicles dealing with Mews household rubbish and recycling waste. My house, 219 Albany Street, and its neighbour 217 Albany Street, both back onto the Mews and are both vulnerable to being scraped by large vehicles especially those driven by people unused to the terrain. Furthermore builders' vehicles parked for long periods during the day in the Mews will mean that Camden's vehicles and those of residents of the Mews will be unable to enter or leave. For this reason alone I must object strongly to the implications of the renewed application to provide an extension to 12 Gloucester Gate.
