

Dear Seonaid,

we wish to withdraw our objection for the above mentioned application. A meeting with Andries Kruger has clarified that this application was discussed with us about 9 months ago, and it is not a new application, as we thought it would be. In fact we think that the application is a real asset for Camden and therefore we fully support this application. Can you please immediately withdraw our objection and replace it with our support? Many thanks.

Best wishes,

Keiko Mizuno & Peter Giese
