Observations
ADVICE from Primrose Hill Conservation Area Advisory Committee
12A Manley Street, London NW1 8LT

24 August 2016

2016/3857/P + 2016/4481/L

The Committee noted that all cables and other elements of the installation would be concealed, that no damage would be caused to the fabric of the Listed Building, and that the installation would be reversible. It was agreed that we had no objection. We also noted that given the use and location of the building the installation should not be a risk to health.
