2016/2997/P	Joe McCormack	Flat 2 30 Redington Road NW3 7RB	25/08/2016 18:02:29	OBJ	<p>I would like to note my vehement objection to the proposed demolition of 28 Redington Road.</p> <p>This house is part of the fabric of this street, in both its visual appearance and its history of uses over the years. This house is in sound condition and needs very light superficial work to be done in order to bring it back to its former glory.</p> <p>I am also alarmed at the thought of the proposed felling of all the mature trees in the area which would impact both green space (part of the areas charm) and impact on already unacceptable air quality levels.</p> <p>This is an ill thought out short term plan with the prime (and only) motive of generating as much profit for the developer as possible with no thought to the surrounding neighbourhood.</p> <p>I have also read in The Camden New Journal on 18 August about this developer's alleged unscrupulous behaviour, which worries me even more given the significance of this property.</p>
