25 Aug. 2016

Dear Mr Marfleet,

We have just lately learned of a proposed development for no. 29 Leighton Road, NW5 (PA 2016/4487/P). As far as we can interpret the rather opaque plans (no measurements, no artist's drawings), this looks like a plan to add an extra storey on a house in our conservation area that is totally out of character with those surrounding it (or anywhere in the near vicinity).

We strongly encourage that this aspect of the proposed plan in particular be rejected and hope that the subsequent planning process will ensure that this house should be modestly developed with a degree of sensitivity toward an area which represents an early period of Kentish Town's urban development.

Sincerely,

Dr. C. Dille

and

J. P. Wagner
