Dear Sir/Madam

DECISION

Town and Country Planning Act 1990 (as amended)

Householder Application Granted

Address:
49 West End Lane
London
NW6 4NY

Proposal: Erection of a single storey rear extension, infill existing garage door and relocate front entrance door.

Drawing Nos: Site Location Plan, 05A, 06, 08A and 09A.

The Council has considered your application and decided to grant permission subject to the following conditions:

Conditions and Reasons:

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise

specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 [and DP25 if in CA] of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans Site Location Plan, 05A, 06, 08A, 09A.

Reason: For the avoidance of doubt and in the interest of proper planning.

Informatives:

- 1 Reasons for granting permission.

The proposed rear extension will extend approximately 1.7m from the Rear elevation and will have a flat roof with a maximum height of approximately 2.2m. The proposed materials will match the existing. Given the scale, siting and proposed matching materials the rear extension is considered an acceptable addition to the host property.

The proposed infill of the garage area is also considered acceptable, there have been a number of similar proposals carried out recently elsewhere on West End Lane. In particular the neighbouring property at No 47 has infilled the garage area, therefore the proposal would further enhance the balance of this part of West End Lane. The proposal will use materials which match the existing in terms of the brickwork and the window proposed.

The proposal also includes the re siting of the front door which is sited within a short corridor adjacent to the garage. The proposal seeks to relocate this door to the beginning of the corridor adjacent to No 47. The re sited doorway is considered an acceptable addition to the host property.

Given the siting and scale of the proposals they are not considered to cause undue harm to nearby and neighbouring properties with regards to loss of light or outlook, or overlooking.

No objections have been raised in relation to the works. The application site's planning history and relevant appeal decisions were taken into account when coming to this decision.

The proposed development is in general accordance with Policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and Policies DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with Policies 7.4 and 7.6 of the London Plan 2016; and the provisions of paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework 2012.
