Informative(s):

- 1 Reasons for granting permission. [Delegated]

The proposed design for Unit 92 of the Horse Hospital, comprising a ground floor unit in the grade II* listed building, is welcomed. The main external change is the replacement of the existing non-original entrance door with a new timber door which will be belted and braced with traditional ironmongery, and given a painted finish in a dark shade in keeping with other redecoration works to the Horse Hospital. This door will be pinned back during opening hours and the restaurant will be accessed through a modern glazed steel-framed door with transoms, the design of which has been discussed with Historic England and LB Camden.

A central flue will be provided for cooking fumes, which will manifest itself on the roof ridge of the listed building, but exiting at the same point as an existing cowl which will be replaced with one of similar dimensions, material and finish.

No objections have been received. The sites planning history was taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the listed building or its setting or any features of special architectural or historic interest which it possesses. Considerable importance and weight has also been attached to the harm and special attention has been paid to the desirability of preserving or enhancing the character or appearance of the conservation area, under s.66 and s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act (ERR) 2013.

As such, the proposed development is in general accordance with policy CS14 of

the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with policy 7.8 of the London Plan 2016; and paragraphs 14, 17, 56-66 and 126-141 of the National Planning Policy Framework.
