2016/4663/P	Peter Julien	1c Highgate Road Kentish Town NW5 1JY	31/08/2016 15:30:39	OBJ	I strongly object to the submission of yet another planning application submitted with unacceptable crude detailing. The previous application was to leave the elevation of the warehousing as existing. But this proposal is based on filling-in the valleys and this blocks out the view to an unacceptable extent and is not approved. I would also recommend a complete review of the modern materials proposed. The cobbles are loved by all who know this area and should be replaced (if necessary) with similar granite sets to preserve this historical setting (see Lanham Place between the BBC and Old Souls Church) why cheapen the appearance of this site with inadequate materials?
