Subject: Re: Comments on 2016/4136/P have been received by the council.

Dear Camden Planning Team,

I had lodged an objection comment for the proposed basement excavation for application ref: 2016/4136/P. I would like to withdraw the comment because I have spoken to the Landlord, the applicant, and we have come to an understanding.

Kind Regards,

Amit

I live at the ground floor flat at 9 Maresfield Gardens, with my wife and 2 young children. The proposed basement excavation will cause severe disruption to our lives due to the noise and dust. More specifically, I work from home so the noise will be difficult to deal with. Most importantly, my wife is mildly asthmatic so she will suffer from breathing difficulties during the course of the excavation. Finally it is worth noting that currently there is already construction going on across the road from us at Maresfield Gardens and Finchley road which makes us feel like we are living on a construction site anyway so is it really necessary to start construction literally at our very doorstep?
