2016/3750/P	Jenny Willmot	37 york way N79qf N79qf	05/09/2016 00:43:19	COMMNT	<p>I submitted objections to the previous application for this site on the basis of the overshadowing and overlooking this would have on the york way properties to the north of it because the building was extended westwards from the existing terraces, ending the current open run of gardens and giving a boxed in feeling.</p> <p>As the developers are now able to build at the front in line with the york way terrace I believe the new building should not extend at the rear beyond the existing line of the terrace, for the above reasons, and because the proposed development is too large and out of character for this conservation area.</p>
