2016/4083/P	T Dempster	61 Goldhurst Terrace	02/09/2016 18:57:07	OBJ	<p>Significant construction work has already taken, and is continuing to take, place on Goldhurst Terrace. No. 61 has just finished basement work and no.s 59 and 57 are in the process. This is in addition to other works being carried out on properties up the adjacent to no. 63, opposite no.63, and elsewhere on the road.</p> <p>There has been considerable noise disruption during this time and this disruption continues. The road often becomes blocked by large trade vans. These vans use both parking and non-parking during the day. Building materials are sometimes stored on the road. Safety on the road has become a problem. I would not suggest that more heavy vehicles and trade vans be added at this time.</p> <p>The noise controls for the current building work are not suitable."The hours of working will be limited to those allowed; 8am to 5pm Monday to Friday and Saturday Morning 8am to 1pm". 8am on a Saturday morning is too early. The disruption caused by very loud drilling and vibrations at 8am every morning for the current work on Goldhurst Terrace have caused a lack of sleep and health problems. I would object to the work being permitted to continue at weekends if permission is granted, even though this may cause an extension in the overall length of the works.</p>
2016/4083/P	Clive Fuller	Flat 2 44 Goldhurst Terrace LONDON NW6 3HT	05/09/2016 07:54:11	COMMNT	<p>I live directly opposite the development. We have just been subjected to 18 months of noise from the development at number 65 which on some days has been intolerable It has been a succession of delivery trucks unloading materials or taking away soil. Some of the trucks are so wide that they block the street causing tailbacks . People then starting using their horns creating more chaos. There have been days of constant banging , hammering cutting ,drilling & people shouting instructions to each other .Trying to mark exam papers , prepare lesson plans from my own home is impossible. Sometimes you cannot hear yourself think. It is like trying to work on the hard shoulder of the M1 .ENOUGH IS ENOUGH. Surely as residents of camden we too have rights. I perfectly accept that people need to repair & upgrade their homes but we have just had 18 months of hell. I cannot believe that we are going to have the same again.</p> <p>I strongly object to this application .</p>
