

Dear Sir/Madam

I write regarding our intention to remove and replace a tree in a private garden.

Location of tree: Rear garden, 27 Parliament Hill

Type of tree: Bay tree

We would like to remove this tree which we think has far outgrown it's intended size (it was planted in a position where the root structure is constrained on 2 sides by solid wall) and replace with a smaller more suitably sized tree.

With thanks for your time, consideration and advice.

Yours Sincerely

Vikki Howell
