2016/4226/P	miss ivana primorac	flat 9 laystall court mount pleasant london WC1X 0AH	06/09/2016 21:37:40	OBJ	<p>Regarding the proposed works, previously the major works and other works completed on this block were beyond substandard, I'm sure you have a shortlist of preferred contractors although how you come to make this final selection I have no idea - thats my first question - how do you come to select the contractors for these works and are they the same contractors that did the glass panelling on the landing some years ago?</p> <p>Secondly, you simply propose that you intend to "replace all single glazed crittal windows with double glazed aluminium framed windows to match the existing size, design and colour" Can you please provide me with a detailed Surveyor's report that states this proposed work is nessessary? having received these letters and in light of the shoddy and in some cases unnecessary work i fully intend to contest any work you intend doing and I'm more than prepared to take my case to the First Tier Tribunal unless I receive a satisfactory response within 21 days of this email.</p> <p>All correspondence henceforth I would like by post as I will add this to my FTT (First Tier Tribunal) bundle should this be necessary.</p> <p>I would also like to be notified of the Committee date.</p> <p>Regards</p>
