Dear Mr Marfleet,

Re: PA 2016/4487/P 29 Leighton Road NW5

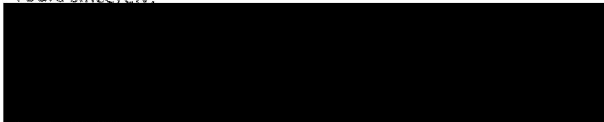

The above has been brought to my attention by my neighbours. I was disappointed that Camden Council did not inform me even though I live virtually opposite this house.

I would like to object **most strongly** to the proposal to add another storey to this house. To add a floor would stick out like a sore thumb and not be in keeping with the historical architecture of the street.

English Heritage recognise this particular area to be of "special interest", and the houses are part of the conservation area.

Please turn down this proposal.

Yours sincerely,

Annie Williams
