Subject: Planninh Application 2016/4104/P - 1 Tranley Mews Fleet Road LONDON NW3 2DG

Dear Sirs,
I have objection to the above application as follows:

I own 14 Constantine Road and I would like to object to the proposed extension to Tranley House for the following reasons:

- a) Invasion of privacy. My home is already overlooked by the existing building and the proposed extension - with its three story glass staircase extension - would be even closer to my home and garden and it would be an intolerable additional invasion of my privacy.**
- b) Light pollution. The lights on the existing building (which illuminates the back of my home and my garden) are often left on until late in the evening and the proposed extension (particularly the stair case) would bring this intrusion practically into my back garden.**
- c) Building density. Tranley House is already within just a few feet of my property and the proposed exertion would almost touch the back of my garden while the three story staircase would simply tower over the whole of my property**
- d) Noise and pollution. The reduction of ground space in Tranley Mews (caused by the ground floor extension) would intensify both noise and vehicle pollution directly behind my home**
- e) It will have huge impact on the value of my property as my garden is overlooked by the people working there. Therefore no privacy at all.**
- f) It will be too noisy all the time as constant cars & lorries coming in and out of the building & road safety.**

I would be grateful if this application is rejected as it is have we have lost privicy from constant overlooking.

Please let me the out come of this application.

Thanking you in advance

Yours Sincerely

Mrs Nandini Bhat
