2016/4352/P	Alexander Petalas	6 Laverton Mews London SW5 0PB	08/09/2016 16:12:46	COMMEMP ER	<p>I am the freehold owner of 20 Brownlow Mews.</p> <p>I am concerned about the digging out of the basement which will be directly adjacent to my property.</p> <p>My property is currently being converted into a gallery and I am seriously concerned about the potential disruptions.</p> <p>From previous experience, when an adjacent building undergoes basement works it needs time to settle. My gallery will not be completed until next year so the timing of this project is highly sensitiv to avoid damage to my property.</p> <p>What is the timeframe for the project?</p> <p>Also, how does the applicant propose to dig the basement without hoarding in front of my property and without blocking my facade?</p> <p>I look forward to a response.</p> <p>Regards, Alexander Petalas</p>
