28 January 2016

Dear Mr Tulloch

**TOWN & COUNTRY PLANNING ACT 1990 (AS AMENDED)  
NATIONAL PLANNING POLICY FRAMEWORK 2012**

**27 King's Mews, London, WC1N 2JB**

*Erection of a three to four storey plus basement building comprising 3x flats with 2nd and 3rd floor floor terraces (Class C3) following demolition of existing office/warehouse (Class B1/B8)*

**Recommend Archaeological Condition(s)**

Thank you for your consultation dated 08 January 2016.

The Greater London Archaeological Advisory Service (GLAAS) provides archaeological advice to boroughs in accordance with the National Planning Policy Framework and GLAAS Charter.

The National Planning Policy Framework (Section 12) and the London Plan (2011 Policy 7.8) emphasise that the conservation of archaeological interest is a material consideration in the planning process. Paragraph 128 of the NPPF says that applicants should submit desk-based assessments, and where appropriate undertake field evaluation, to describe the significance of heritage assets and how they would be affected by the proposed development. This information should be supplied to inform the planning decision. If planning consent is granted paragraph 141 of the NPPF says that applicants should be required to record and advance understanding of the significance of any heritage assets to be lost (wholly or in

part) and to make this evidence publicly available.

The planning application lies in an area of archaeological interest.

The site lies within the London Suburbs Archaeological Priority in a location with significant potential for remains of Roman and post-medieval periods as well as the possibility of other discoveries. However I note the relatively small-scale of the proposed development would limit its impact.

Appraisal of this application using the Greater London Historic Environment Record and information submitted with the application indicates that the development is likely to cause some harm to archaeological interest but not sufficient to justify refusal of planning permission provided that a condition is applied to require an investigation to be undertaken to advance understanding. The archaeological interest should be conserved by attaching a condition as follows:

- Condition      No demolition or development shall take place until a written scheme of investigation (WSI) has been submitted to and approved by the local planning authority in writing. For land that is included within the WSI, no demolition or development shall take place other than in accordance with the agreed WSI, which shall include the statement of significance and research objectives, and
- A. The programme and methodology of site investigation and recording and the nomination of a competent person(s) or organisation to undertake the agreed works
- B. The programme for post-investigation assessment and subsequent analysis, publication & dissemination and deposition of resulting material. this part of the condition shall not be discharged until these elements have been fulfilled in accordance with the programme set out in the WSI
- Informative    The written scheme of investigation will need to be prepared and implemented by a suitably qualified professionally accredited archaeological practice in accordance with Historic England's Guidelines for Archaeological Projects in Greater London. This condition is exempt from deemed discharge under schedule 6 of The Town and Country Planning (Development Management Procedure) (England) Order 2015.

I envisage that the archaeological fieldwork would comprise the following:

## Excavation

Archaeological excavation is a structured investigation with defined research objectives which normally takes place as a condition of planning permission. It will involve the investigation and recording of an area of archaeological interest including the recovery of artefacts and environmental evidence. Once on-site works have been completed a 'post-excavation assessment' will be prepared followed by an appropriate level of further analysis, publication and archiving.

Further information on archaeology and planning in Greater London including Archaeological Priority Areas is available on the Historic England website.

Please do not hesitate to contact me should you require further information or assistance. I would be grateful to be kept informed of the progress of this application.

Please note that this response relates solely to archaeological considerations. If necessary, Historic England's Development Management or Historic Places teams should be consulted separately regarding statutory matters.

Yours sincerely
