Your comments on the planning application

My concern about the proposed work involves the construction of roof terraces to the rear of the building, with the probability of these being used late into the evening, and for barbecues. These would add considerably to the noise levels in the area, given the layout of the building at the top of the mews and the echo chamber caused by the building being at a right angle to those in Grays Inn Road. They will also next to the bedrooms of the next-door which would constitute a nuisance with noise, smoke and smell, particularly in the summer.

I am also concerned about the construction work, and the effect that it could have on next door which is built over the arch into the mews.
