**Subject:** Camden Council Planning Application 2015/6455/P

Dear Ladies and Gentlemen

Please make sure that West Hampstead Public and Open spaces are not taken over or damaged in anyway by new buildings. West Hampstead is becoming extremely crowded, please keep our open and public spaces in the best possible condition.

There are reports by the community in West Hampstead on technical reports of daylight and sunlight data not being adequate and requesting a complete independent study, specially regarding public amenities and the Designated Open Space in Crown Close.

While I support this call, I think more importantly don't sell off our spaces to building companies whose bottom line is large profits from their ventures.

Best wishes

Shahram Parvin
