Dear Camden Council Planning

The residents of Troyes House are opposed to the installation of the mobile phone mast on top of Troyes House.

We would like to clarify what exact personal information Camden Council requires for a postal planning objection letter. On the online version you require certain information, what your website does not state exactly what personal information you require from a postal objection.

We look forward to a very prompt reply to this e-mail given that we as residents have only been given 21 days to object to the application.

Thank you.

Sudhir Daya

on behalf of the Troyes House residents group (THRG)
