Subject: Planning application 2016/4742/T

Dear Sir,

I would like to object to the planning permission application 2016/4742/T.

These trees provide a considerable amount of privacy to my flat and I believe I would lose this if this tree work was to go ahead.

Also the Leylandii in question has been very badly pruned approximately 5 years ago and has never recovered, it is just bare sticks on the side, if the top was to be reduced as planned there would be no greenery left just bare sticks all over.

Regards,
Brent Newsome.
