2016/4083/P	Rafi Hirsch	50 Goldhurst Terrace	20/09/2016 16:47:23	OBJ	<p>We have suffered and endured several years of back to back basement excavations in this street and it has been a continuous disruption. Noise, dust and dirt, unauthorised parking bay squatting etc etc. I have personally had to complain to builders on several occasions because they start work before 8am. WE HAVE HAD ENOUGH!! It is unfair to the residents of this street. There are small children and elderly residents being adversely affected by this.</p> <p>This has become completely unacceptable and I would therefore like to protest against any further such work being carried out in this street.</p>
