2016/4476/P	Dorothy MacDonald	15 Parliament Hill Flat 2 Hampstead London NW3 2SY	18/09/2016 17:07:19	COMNOT	I have strong objections to the further increase in an already huge basement. For 6 months neighbours have endured a running generator and drilling on a daily basis from 9-5 on weekdays and frequent disruption from trucks removing spoil to say nothing of any damage that may have occurred to surrounding properties. All for a totally unnecessary private gym. As the proposed extension to the basement area appears to be beneath the front rooms of the house has this already been excavated before permission is applied for?
