Hello Tony

Good to speak to last Friday

Please find attached photos of the spandrel panel interface with the fixed glass window
The floor slab drawing sent last week is hard to understand fully so I have attached the photos
showing how it all fits together.

Drawing PL001 (D) and PL002 (M,K) show the existing interface with the spandrel panel and
fixed glass, the new photo attached basically shows that the original spandrel and new spandrel
looking identical

We are in London next week if you would like to go back to site to confirm information provided

Regards

David
