2016/4936/P	NLTK	36 Waxham Mansfield Road London	23/09/2016 19:37:00	OBJ	<p>These so called experts are fresh out of university with a dream about growing fungi. One quick look through their atrocious website, which by the way is full of numerous spelling mistakes, shows you how they are amateurs with a "dream", a "vision" with nothing to show in terms of carrying it out. Fun fact: Cesar has been "woking" as a firefighter for the last 13 years which is just kind of man I'd like to grow my mushrooms. Not really sure what "woking" entails but I digress.</p> <p>They have approached about 3/300 residents of the Ludham community about their plans and decided to put in planning application, again, since they felt satisfied they had consulted everyone. What's more, is that there is no evidence on their website of this farm in Elephant and Castle, the kind of thing you'd show off on your website to show you have the aptitude to grow produce in coffee grounds. Nevertheless, I can't find evidence of planning application on Lambeth council's website or Article No.25. One can only assume this farm is one of fiction or it's simply too small to gain recognition.</p> <p>All in all, the residents of Ludham do not want this project due to the Mushroom Brother's shady practices behind our backs and their inexperience.</p>
2016/4936/P	Shafeeq Siddiqui	23 Ludham Lismore Circus NW54SE	24/09/2016 15:28:49	COMMNT	<p>My Comments are as follow:</p> <ol style="list-style-type: none"> 1)Any use of building space/basement in Ludham must be of direct benefit to its Residents. 2)Traffic pressure of Parking on Residents is very high and this space need to be reactivated as Garages. 3)Part of the Space can be utilised for storage cubicles for Residents. 4)The space is very central in London and as such needs to be used to help London and its living habitat. 5) Mushrooms can be grown in outer areas or other derelict lands of London. 6) Mushrooms could affect the Health of residents and compost/spores etc over time can be infectious. <p>I would strongly reject the Application for Mushrooms under Ludham.</p>
