Application to Clear Planning Condition 09 (b): Fireplaces

This information is prepared to satisfy the requirement to satisfy condition No.09 (b) of listed building consent reference 2016/3225/L. Existing blocked up fireplaces are to be reinstated with new surrounds and grates, where practicable.

Existing windows:

- Refer to drawing 2014_03_45 for fireplace designation locations, and supporting manufacturer's detail drawings (4 No. A4 drawings) for the fireplace dimensional information.
- The existing fireplace surrounds structure for the fireplace in the rear bedroom of the first floor flat (F3) is not compatible with reinstatement without extensive alteration to the existing structure. We therefore propose that fireplace is retained as existing.
- Fireplaces F1 and F4 are to be reinstated with new Chesney Victorian Corbel fireplaces in Limestone, with Britton Arch register Grate No.1.
- Fireplaces F2, F5 and 6 are to be reinstated with new Chesney Victorian Classic fireplaces in Limestone, with Britton Arch register Grate No.4.

Chesney Victorian Corbel Surround: Limestone: (this photo is marble but proposal is limestone)

Chesney Victorian Classic Surround: Limestone. (Note: grate in picture is not proposed)
