2016/4136/P	Alan P Taylor	Flat 22 Mourne House 11 Maresfield Gdns NW3 5SL	26/09/2016 11:33:25	OBJ	<p>I would like to lodge my objection to this planning application on the following grounds.</p> <ol style="list-style-type: none"> 1. There is no semi basement only a small storeroom. 2. Any flats created would be subterranean and only fit for rabbits. 3. Excavation will create problems with the water table and could cause subsidence to Nos. 7 & 11 Maresfield Gdns. Mourne House (11 MaresfieldGdns). has already suffered from serious slippage to the rear garden caused by building work at 120 Finchley Rd. 4. The plans show that the building footprint is increased and therefore reduced the size of the garden. 5. The removal of two trees. 6. Additional residents will further increase the strain on local amenities and cause more parking problems. 7. Maresfield Gdns. has suffered from building works since I have lived here for the last 6 years. South Hampstead School, 120 Finchley Rd. the Catholic Church side building are but a few of the construction works which have reduced the quality of life which I am entitled to. 8. No. 2 Maresfield Gdns. has been a continuous source of inconvenience with various developments starting and stopping. There is still no end in sight for this disgraceful blot on our lovely road to be completed. 9. Excavation will create noise, dust and the blockage of the road by trucks.
