2016/4803/P	Prof Barbara Pedley	21 Lawn Rd Belsize Park london NW3 2XR	26/09/2016 16:11:14	OBJ	'I am concerned about the possibility of phone masts too close to my house. I feel that there is insufficient knowledge about mobile phone radiation to rule out a significant chance of damage to health from this, and I do not feel that they are required in this location. I sincerely hope that the Council will reject this application.
2016/4803/P	Lisa	11 Troyes House Lawn Road NW3 2XT	26/09/2016 21:31:43	OBJNOT	I strongly object. I will be sleeping right underneath these telephone masts, I am seriously worried and very anxious about the effects that these antennas might cause as there has not been enough evidence to say they are 100% safe.
2016/4803/P	P Bentley	Dunboyne Road NW3 2YY	26/09/2016 22:44:00	OBJNOT	I strongly object to the 6 mobile phone antennas on the roof of Troyes House. Not enough is known about mobile phone radiation. This is purely for financial gain, ignoring potential risks to adult and child health.
2016/4803/P	joanna savory	Top Flat 10 Upper Park Road London NW3 2UP	27/09/2016 07:34:07	COMMNT	I SRONGLY OBJECT! This is a health risk to all local residents- you are playing with people's lives, for financial gain....
2016/4803/P	Joyce	Dunboyne Road NW3 2YY	26/09/2016 21:16:46	OBJNOT	I am very concerned and worried about the proposal to install 6 mobile phone antennas very near my home. There has not been enough evidence to say they are 100% safe.
