2016/4803/P	Mark Bostridge	8 Lawn Road 7/9 Fellows Road NW3 2XS NW3 2XS	28/09/2016 19:44:02	COMMNT	<p>There are no clear reasons for this 6 mobile phone antennae to be installed at Troyes House.</p> <ol style="list-style-type: none"> 1. They are an eyesore and will affect the appearance of the area 2. They are unnecessary. There is already more than enough power for the phones in this vicinity. 3. There is scientific evidence that the provision of such masts may affect the health of people nearby.
2016/4803/P	Nick Francis	Flat 1 30 Parkhill Road London NW3 2YP	28/09/2016 13:57:55	OBJ	<p>I strongly object to this application on grounds of design and health.</p> <p>The area is a Conservation Area and I do not see how a GRP box can add to or improve the Conservation Area as set out in policy.</p> <p>There remain significant doubts over the long-term health effects from mobile phone masts. Many recent studies point to increased cases of cancer. As a nearby resident and as a parent of children who attend Three Acres play schemes, which is only a few hundred meters away, this is an unacceptable risk.</p>
