2016/3661/P	Elahe Yazdi	Flat one 15 Langland Gardens London NW3 6QE	29/09/2016 11:30:26	COMMNT	I looked at this application again and thought that it is almost the same as the previous one and there is hardly any noticeable change, so my objections remain the same. My flat is directly underneath number 13A's balcony on the garden side (at the back) and also the proposed balcony at the garden side outside 13 in the front is a total intrusion of my privacy, which goes against Camden's planning guidelines. It is only sensible to refuse this planning application again as it is the same as before.
