The Council has considered your application and decided to grant permission subject to the following condition(s):

Condition(s) and Reason(s):

- 1 The development hereby permitted must be begun not later than the end of three years from the date of this permission.

Reason: In order to comply with the provisions of Section 91 of the Town and Country Planning Act 1990 (as amended).

- 2 All new external work shall be carried out in materials that resemble, as closely as possible, in colour and texture those of the existing building, unless otherwise specified in the approved application.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

- 3 The development hereby permitted shall be carried out in accordance with the following approved plans 6214-FS56+58-BLOCK PLAN, 6214-FS56/58-OS, 6214-FS56+58-E02, 6214-FS56+58-E03, 6214-FS56+58-E04, 6214-FS56+58-E05, 6214-FS56+58-E06, 6214-FS56+58-E06, 6214-FS56+58-P03, 6214-FS56+58-P04, 6214-FS56+58-P05, 6214-FS56+58-P06, 6214-FS56+58-P02, 6214-FS56+58-D301, Design, Access and Heritage Statement.

Reason: For the avoidance of doubt and in the interest of proper planning.

- 4 The integrated satellite dish, television and radio aerial hereby permitted shall be painted black and maintained as such.

Reason: To safeguard the appearance of the premises and the character of the immediate area in accordance with the requirements of policy CS14 of the London Borough of Camden Local Development Framework Core Strategy and policy DP24 and DP25 of the London Borough of Camden Local Development Framework Development Policies.

Informative(s):

- 1 Reasons for granting permission.

The proposed integrated reception aerial would be concealed by the slope of the existing roof and remain largely unseen from street level, ensuring the special character and appearance of the building is retained. It would be conditioned to be painted black to blend in with the roof. The replacement of the dormer windows with timber, double glazed fixtures would not harm the special interest of the host building or the appearance of the surrounding conservation area due to their limited visibility. The rooflights would not be visually prominent within the streetscene due to them being concealed behind a parapet.

The alterations would not give rise to any adverse impact on the amenity of neighbouring occupiers in terms of loss of light, outlook or privacy.

No objections and one comment was received following statutory consultation. The site's planning history and relevant appeal decisions were taken into account when coming to this decision.

Special regard has been attached to the desirability of preserving the building or its setting or any features of special architectural or historic interest which it possesses, and of preserving or enhancing the conservation area, under s.66 and s.72 of the Planning (Listed Buildings and Conservation Areas) Act 1990 as amended by the Enterprise and Regulatory Reform Act 2013.

As such, the proposed development is in general accordance with policies CS5 and CS14 of the London Borough of Camden Local Development Framework Core Strategy, and policies DP24, DP25 and DP26 of the London Borough of Camden Local Development Framework Development Policies. The proposed development also accords with the policies of the London Plan 2016 and the National Planning Policy Framework.
