

Appendix E . Existing survey

Note:

Some services may have been omitted due to parked vehicles. The Ordinance Survey file is to be used as a guide only.

OS Buildings Surveyed Buildings

The survey has been orientated to the Ordinance Survey (OS S1 National Grid (OSGB36)) via a Global Position System (GPS) and the OS's Active Network (OS Net).

The true OSGB36 coordinate has been established near to the site and a transformation using the OSTW02 & OSGM02 transformation models.

The survey has been correlated to this point and a further one or more OSGB36 points established to create a true OS bearing for angle orientation.

No scale factor has been applied to the survey therefore the coordinates shown are arbitrary & not true OS. Coordinates where a scale factor applied.

Please refer to Survey Station Table to enable establishment of the on-site grid.

Comments	
This plan should only be used for its original purpose. GreenHatch Ltd accepts no responsibility for this plan if supplied to any party other than the original client.	
All dimensions should be checked on site prior to design and construction.	
Drainage information (where applicable) has been visually inspected from the surface and therefore should be treated as approximate only.
