2016/4614/P	Belsize Residents Association, Sanya Polescuk	8a Belsize Court Garages	01/10/2016 16:46:16	OBJ	The proposal includes raising the boundary wall in order to facilitate the new external staircase. Unfortunately the proposed increase resulting in only a handrail high wall is insufficient for maintaining privacy with the adjacent property. This would only be possible with the additional 700mm along the staircase incline and 300 on top of proposed 1500 rendered wall. The resulting height of the boundary wall would be unacceptably tall. Locating the new stairs on the opposite side of the garden might prove a better solution?
