2016/4109/P	Stuart Jones	12 Fletcher Court Ingestre Road NW5 1XE	03/10/2016 22:20:07	OBJ	<p>I object to this addition to the existing development for the following reasons:</p> <ul style="list-style-type: none"> - The building work is already well underway for these new units despite the fact that planning permission has yet to be granted. - Given the developer's previous flouting of their planning permission constraints I have no confidence that residents of the Ingestre estate will not be subjected to further deliveries via Ingestre Road and all the concomitant problems we have experienced up till now. - No thought or provision has been made regarding cars belonging to the residents of this additional development. The problem of how traffic will be managed in Little Green Street - which is of course a de facto pedestrian walkway rather than a highway - is still yet to be solved. Bringing further traffic through is simply making the problem worse. - The new units will negatively affect the children's playground: + The walls that will be constructed adjacent to the playground will reduce the natural light significantly. + The walls are likely to be covered in graffiti pretty soon after construction. Being the rear walls of the development, no-one living in the development will care, but those using the playground will be exposed to it. + There are precious few places for children to play so this playground, humble as it is, serves a very important purpose and should be respected rather than being treated with contempt. <p>Please notify me of the committee date.</p>
