2016/5372/P	Annie Sayer	45 Lady Somerset Road NW5 1TY NW5 1TY	06/10/2016 17:17:10	OBJ	<p>I object to this planning application because it is clearly too large and oppressive and will loom gloomily over the street, blocking the sense of space and light we currently enjoy. I know A and A storage is considered scruffy by some people, but it is preferable by far to the feeling of being hemmed in, which is what this development will achieve.</p> <p>I also strongly object because there are only eight affordable rented properties within the whole development. This is completely unacceptable. Developers are by far too greedy and making vast profits to the detriment of the local community. This is our neighbourhood and must at all costs remain a mixed one. There are far too many luxury flats being built in this area and we will be swamped by people who can afford these huge housing costs. Under the 2016 Housing and Planning Act councils are being forced to sell off their council housing. Where are these people to go, who have lived in the Borough all their lives? Is Camden prepared to demand so little in return from these developers who make such enormous profits? If this oversized development is allowed to take place, what plans does the council have for doctors, hospitals, schools and transport? Or is this development aimed at the overseas market - for people who do not intend to live here or even rent out their property? More thought about this is needed and Camden need to get a lot more from developers who are changing the nature of our community to make large profits for themselves, leaving no benefit for local people or the council.</p>
