Dear Sir,

I write to object to the proposed erection of O2 mobile
phone tower on the roof of Troys House.

This is a relatively low lying building full of people.
I object particularly because of the possibility of being affected by
high levels of electromagnetic radiation that can have harmful
effects on us all, especially our children.

I walk this route regularly often accompanied
by small, young family members. I can see no justification
whatsoever in erecting potentially dangerous installations

Yours faithfully.
