2016/3860/T	Robin Vaughan	67D Belsize Park Gardens London NW3 4JN	08/10/2016 10:01:38	OBJEMPER	<p>I wish to object to this planning application.</p> <p>First it is not true that all the trees have been lopped back as a check on the gardens will show. For example the trees at 73/75(?) and 61 are not lopped.</p> <p>Furthermore the persons named in the application have bought the properties they live in knowing full well of the existence of the tree. If they object to it then they should have bought elsewhere, not now try to deprive other persons of the presence of the tree in its natural shape.</p> <p>To lop it will diminish the views over the gardens from many residences, infringing very negatively many persons for the benefit of a few.</p> <p>In addition the lopping of such a tree can affect its root structure and can affect negatively the structure of the soil and the properties built on that soil.</p> <p>I</p>
