

Dear Ma'am, Sir,

We live at 92A Belsize Road and have a dead tree in our private garden. We are writing to seek your permission for removal of this tree. I am attaching some pictures of this tree.

I am also attaching my previous correspondence with Tom Little at the planning department. Mr Little had visited our property to assess the trees in our garden when we moved into the property 3 years back. The tree in question at that time was another one which seems to be healthy now. However, after his examination of the trees, Mr Little had expressed concern about the decay of the tree which is dead now.

Please feel free to call me on [REDACTED] if you need any further information. I look forward to having your permission of the dead tree.

Many thanks,  
Sohini Abhat
