Re: 2016/2470/P Erection of three dwellings at St Peters Church

Dear Sirs

I am the owner of a flat on the south side of Belsize Square opposite the garden of the rectory and a Director of 5 Belsize Square Ltd

It was only by word of mouth, that I recently was made aware of the above development. I received no correspondence on the matter

I note that there has been no decision as yet. I am most concerned as per your website the consultation period appears to be over: This concerns the building owners and Directors of 5 Belsize Square deeply, as there appears to have been no proper consultation over this proposal which we have major issues and concerns with.

Noone at 5 Belsize Square has received any formal communication about this proposal, even after planning was applied for in June.

Before this project can even be considered for proceeding it is essential that there be a broad, on the ground, and lengthy consultation with all the local residents.

As long term residents of this beautiful and historic area, we are very concerned about our neighborhood and equally concerned that due process is followed for a proposal as significant as this in terms of impact on the area, so I'd be grateful for your response

I am currently in the USA. Please send correspondence to me at the above address.

Please also be so good as to e mail correspondence to me to ensure I receive in a timely manner

Yours Sincerely

Dr Georgia Tarnesby
