Attachments: 23KHR new application.docx

Dear Robert Lester

Please see attached screen grab – application 2016/4443/P does not appear to be available for me to comment on?

From what I can read both windows they want to change to now appear to be bigger and as they are applying for sash I can't see how they can be frosted which certainly the bathroom and the kitchen need to be (they are only about 3 feet from where we sit on our terrace.)

Thanks for your help
