### 2. Agent Name, Address and Contact Details

No Agent details were submitted for this application

### 3. Description of the Proposal

Please describe the proposed development including any change of use:

Previously the footpath and gardens in front of 202-220 Iverson Road were separated from the pavement by a wall. The wall was found to be leaning at an unsafe angle and so as requested by Camden building control the upper part of the wall was demolished and replaced by temporary plastic barriers.

The wall was joint property of the freeholders of 202-220 Iverson Road (10 houses) and after discussion between the freeholders we have jointly agreed that we would like to replace the demolished upper portion of the wall with a fence. This will maintain the character of the houses and protection for pedestrians while providing easier maintenance and avoiding the structural issues involved in constructing a full height new wall. Constructing a full height new wall is likely to be challenging due to the natural slope in the road over the 10 houses and the presence of large trees and roots under the pavement.

Has the building, work or change of use already started?  Yes  No
