2016/5052/P	Goss	93 a Toriano Avenue	15/10/2016 13:59:42	OBJ	I object to the erection of a rear outbuilding. Given that this application is in essence identical to the application of 2015, which was rejected, it is disappointing, therefore, that it has been submitted by the owner and disappointing that the planning officer has allowed it to be submitted. From my window and balcony, this rear building would cause the whole area at the rear to appear over-built and cramped. It is an example of insufficient consideration for the long term quality of life - for gardens and views. It may well cause additional traffic and noise. Please do not allow this proposal to go ahead.
