2016/5069/P	Ian Burgess	58 Manor Wood Rd Purley Surrey CR8 4LF	18/10/2016 13:07:24	COMMNT	We are the owners of 36 Ingham Rd, which is next door this property. Whilst we have no objection to a roof terrace the suggested 1.8m slatted fence screen on the East elevation (added to the application on 13.10.16) gives a sense of enclosure and makes the space more solid and pollutes the already congested roof area. This would (in addition to the recent pod extension) further block out the skyline view from both the garden and 1st flr middle and rear rooms, and 2nd flr rear windows of 36 and reduce the sense of openness from the small garden and for neighbouring properties. There would be less impact on the view and loss of natural light and amenity of the garden if the screen were in opaque glass as set out in Clause 5 of the Applicants Design and Access Statement, also if the other two 1.1m high sides were in clear glass as opposed to railing or fence
