2016/5052/P	Adam Hewitt	Adam Hewitt Flat 3 97 Torriano Avenue London NW5 2RX	19/10/2016 23:05:47	OBJEMPER	As a long time owner of flat 3, 97 Torriano Avenue, I wish to register my strong objection to the latest application for an outbuilding at the end of the garden of no 95. The building will overlook the rear windows and balcony of mine and others flats at number 97, resulting in loss of privacy. There will be additional light and noise pollution from the cabin. The small site will be overdeveloped and garden space will be lost, as well as a precedent being set for further similar development in the area gardens. The massing of the new building will not be consistent with the surrounding buildings and the design is unsympathetic to the area. The current application is very similar to the previous proposal which was rejected, so I see no reason why this application should now be accepted.
