Dear Kasuni Warapperuma / Planning Team ,  
I am the legal owner of Café Romano and I have received your notification letter regarding 2016/4372/P for the development of site and upper floors  
I have made searches on submitted details and documents with my architect and submitted documents do not represent existing extractor system and flue to the rear (images below)

2 : View of Flue Fan at Rear

3: View of Flue at Rear

We have strong concern that the existing Extractor and Flue has not been taken into account and we believe this will create major issues of noise and odour with future occupiers of upper floor in case the recent application gets approved therefore we seek this application to get refused and new application with relevant reports from environmental engineers in accordance with existing installed system and proposal for quality life standards within residential location

Café Romano is a very well established operating premises for locals and people pass by therefore we seek minimised effect on this premises with search of submitted documents and information although it indicated the premises to be

2016/4372/P	colin	9 downing court grenville street	21/10/2016 17:10:51	COMMNT	I live on the first floor of Downing Court (which is effectively the second floor when looking at the back). My back windows overlook the site and the alterations will reduce further the amount of light through the windows at the back of my flat, in particular to my bedroom.
