2016/5613/P	Steven and Sue Charkin	Silverdale Vale of Health	23/10/2016 11:43:45	OBJ	<p>Dear Sir/ Madam</p> <p>Thank you for notifying us of a planning application in our neighbourhood. We note that there is a time limit to comment on the application which is based on the date the application was registered.</p> <p>Checking you website however today, 23.10.16, the only information available was the site location map. This incorrectly shows Beechey Cottage as the site of the application rather than Hillview, which is an entirely different location.</p> <p>Under the “view related documents” link there are no documents at all uploaded so clearly it is impossible to make any sensible comments at this stage.</p> <p>Please would you:</p> <ol style="list-style-type: none">1. Correct the location map2. Upload all the relevant documents3. Notify us when both of these things have been done4. Extend the time for consultation as clearly it is unreasonable to expect us to be able to comment on a blank application located at the wrong site.
