Watch Out

In 1921 lock-keeper
W H Smith lived here
with his cat, keeping
watch over the St
Pancras lock.

Today, our volunteer
lock keepers keep
watch over 2,000 miles
of waterways across
England and Wales.

Fancy a Penny Lick?

The year is 1857, and Italian immigrant Carlo Gatti has just had a brilliant idea.

“I’ll bring affordable ice cream to London!” He shouts, slamming his gelato bowl down in excitement.

How you ask? By using Regent’s Canal of course! Carlo used this stretch of water to import ice from Norway.

This gave many Londoners their very first lick of ice cream, at a very reasonable price.

Discover how we’re using our incredible waterways today. Search online for ‘London canals’

BRANDED WORKS HORDING

Overall Dimensions: L 40 m X H 70 cm

Installation Method: Applied vinyl

Material: Temporary adhesive vinyl with printed graphics

Location: Branded works hording surrounding building development facing the tow path (exact location flexible depending on existing signage)
